Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 06/13/2005 has been entered.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 11-17, drawn to a method for storing a validated address in a companion file by accessing the companion file, comparing an address to the pre-validated address in the companion file, if the address is not validated based on the companion file then comparing the address to the pre-approved addresses in a database and storing information relating to the validated address in the companion file upon an address validation based on the database of pre-approved addresses, classified in class 707, subclass 2.
- II. Claims 18-23 and 49-53, drawn to a method for matching an address with a database of pre-approved addresses by storing a plurality of pre-approved addresses with a predetermined format in a database, receiving

address data with different formats, mapping the received address data into the predetermined format then comparing the received address after mapping to the addresses in the database for validating and selecting, classified in class 707, subclass 6.

The inventions are distinct, each from the other because of the following reasons:

Inventions I-II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. For example, Group I is drawn to a method for storing a validated address in a companion file by accessing the companion file, comparing an address to the pre-validated address in the companion file, if the address is not validated based on the companion file then comparing the address to the pre-approved addresses in a database and storing information relating to the validated address in the companion file upon an address validation based on the database of pre-approved addresses, Group II is drawn to a method for matching an address with a database of pre-approved addresses by storing a plurality of pre-approved addresses with a predetermined format in a database, receiving address data with different formats, mapping the received address data into the predetermined format then comparing the received address after mapping to the addresses in the database for validating and selecting. See MPEP 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicants are advised that the reply to this requirement to be completed must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicants is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CR 1.48(b) and by the fee required under 37 CFR 1.17(i).
